Introduction

Renew are the leading specialists in the supply of traditional reclaimed and new building and landscaping materials across the UK. Our products are ideal for innovative, extension and new build projects, for both trade and DIY.

We stock an extensive range, from traditionally handmade new and reclaimed bricks, railway sleepers, roofing tiles and slates to natural stone paving, oak flooring, timber cladding, architectural salvage and even firewood.

We source and salvage large quantities of reclaimed building materials nationally from demolition and renovation sites, and as direct importers of natural stone paving, oak flooring and sleepers, we are able to offer the highest quality products at very competitive prices, guaranteed.

Product Sourcing

If you are looking for something more unusual or rare, our experienced staff will be happy to offer a personalised service to assist in locating what you require.

Collection & Delivery

Centrally located near Shifnal in Shropshire, we welcome visitors to our yard and offer a nationwide delivery service with crane offloading facility if required.

For more information about any of our products, contact our friendly team on 01952 750 816 or sales@ren-new.co.uk.
